Multilingual and client-focused Front End developer, with core HTML, CSS, jQuery & JavaScript skills. Excellent analytical and problem solving skills, with a particular enthusiasm for providing great user experience across the entirety of a digital product. I am a passionate front end web developer seeking immersive job roles with scope for further training and progression.

OBJECTIVE

I am now looking for a Junior to Mid Front End Developer role that would provide me with the opportunity to use my development skills to create and contribute to web projects, with a focus on user experience. I am eager to continue to improve my development skills and I am now interested in seeking opportunities that will be more intensely focused on Javascript.

SKILLS: HTML, CSS, JQuery, Javascript, Responsive Web Design, Demandware, Twitter Bootstrap, Microsoft Office; basic knowledge of Photoshop and Dreamweaver.

RELEVANT SKILLS: Self-motivated and adept at using own initiative to provide effective support, great attention to detail. Focused, dedicated and discrete.
